# CDTrans-NMU

The network management system composed of CDTrans-NMU can realize the comprehensive management of CDTrans-X wavelength division transmission system. It supports remote connection, chain, ring, and ring chain networking to realize one-point access to the whole network. It supports Web and CLI, and can build professional network management solutions.

▤ Product Highlights

• **Support hot pluggable, easy to maintain and manage**

The push rod can help users easily and quickly insert/remove NMU.

• **Rapid deployment**

Rapid software deployment, efficient configuration with the help of Web interface, integrates system management, real-time monitoring and alarm functions.

Product Description

Items	Description
Dimension (H*W*D)	22*170*245mm
Port	3*FE SFP
	3*FE RJ45
	2*Micro USB
Network management mode	CLI ,WEB
Power consumption	<10W
Working environment	Temperature: -10℃ ~ 60℃
	Humidity: 5% ~ 95% without condensation
Storage environment	Temperature：-40℃ ~ 80℃
Security and EMC	FCC, UL, CE, TUV, CSA
